

Docket E-00000XX-13 -  
02/14

0000157973

Arizona Corporation Commission:

Energy efficiency in the state of Arizona is extremely important in the initiative to lower emissions which augment respiratory illnesses that are prevalent in AZ as well as the money it could save on Utilities during the hot summer heat.

I am a current resident of the State of Arizona, I am in full support of the current energy efficiency standard. I believe it should stay in effect to keep the benefits of energy efficiency,

Although energy efficiency costs may be slightly more expensive up front, over time this will allow my utility bills to decrease. The current energy efficiency standard is key! Thank you for your work on this urgent issue.

Sincerely,

John A. Manning
